ACTIVITIES

The activity consists of a pre-visit to the educational center, a visit to the Museum and a post-visit to the educational center.

Pre-visit: in the school, in 15 minutes they will be shown works by the artists of the Museum. They are told the rules of the visit and are invited to come. In addition, they are told that there is an "ugly picture" in the Museum and that they will have to help it.

Visit: It is structured in 3 phases:

1st Presentation

DURATION: 15 MINUTES.

They are introduced to the activity, motivating them towards their artistic side. Today they are artists.

2nd Visit to the exhibitions

DURATION: 45 MINUTES.

The Museum's exhibitions are visited. They are asked open-ended questions about the works to encourage "learning to think". It also focuses on the emotions that each work suggests to them. Finally, they will each have to choose a painting that will be "The Ugly Square", which they will have to help.

3rd Artistic expression

DURATION: 1 HOUR.

The idea is for them to create a creative plastic work on the works of Cecilia Paredes and Antoni Tàpies, transforming them into unique works made in their own personal style.

Post-visit: the visit is made to the educational center to recapitulate activity and the works carried out, review what they did and thank them for their participation and intervention.

METHODOLOGY

Participatory, interdisciplinary, visual thinking, open-ended questions and learning by doing.

Experiential education through play, integrating action with emotions and thought. Teamwork. The pace of activity/learning and interests of each person will be respected.

The aim is to accompany people in their learning process, without conditioning their decision-making and respecting their initiative and creativity.
